Detailed Action

1. Claims 1-26 are presented for examination. This office action is in response to the amendment filed on 8/31/2006.

Specification

2. Applicants are requested to update the status of the related U.S. patent application accordingly (e.g., U.S. Patent Application Serial No. #####,### filed Sept. 07, 1990, now abandoned; ..., now U.S. Patent #,###,### issued Jan. 01, 1994; or This application is a continuation of Serial Number #####,###, filed on December 01, 1990, now abandoned; ...etc.). Also applicants are requested to include the status of the related U.S. applications or patents in the CROSS-REFERENCE TO RELATED APPLICATIONS section and in any other corresponding area in the specification, if any.

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed. It appears that "1-CHOP" should be changed to "1-CHIP" in the title for consistency. Also the title should be more specific to differentiate the invention from similar inventions in the patent literature. The "register writing control means", "a monitor flag", "access permission address range setting means", "judging means", "access permission setting means", and "control means" aspects of the invention should be mentioned in the title so that the title is more descriptive.

REASONS for ALLOWANCE

4. The following is an Examiner's statement of reasons for the indication of allowable subject matter: claims 1-26 are allowable over the prior art of record because an update of a search previously made does not detect the combined claimed elements as set forth in the claims 1-26. Specifically, claims are allowable over the prior art of record because none of the prior art of record teaches or fairly suggests a method and a apparatus for limiting the access nonvolatile memory such as an IC card in 1-chip microcomputer as described in the specification and together with combination of other claimed element as set forth in the claims. Also the reasons for allowance of the claims over the prior art of record is believed to be clear from the prosecution records taken as a whole. Therefore, claims 1-26 are allowable over the prior art of records.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons For Allowance."
